

Course: DSC003 (Part A)

Continuous Assessment | Group Project Activity

- Select any statistical concept/theory taught to you in DSC003.
- Apply the same to any real-life situation or problem.
- Components of the project report:
 - Title
 - Background/Motivation/Rationale
 - Statistical Theory/Concept
 - Real-Life Example/Case Study
 - Results
 - Conclusion/Limitations
 - References
- Word limit: NOT more than 3000 words.
- Evaluation will be based on project report or presentation or both.
- Project should be hand written and only hard copy will be accepted.
- Last date of project submission: 01.09.2026. No submissions will be accepted or evaluated after this deadline.
